

YASSER AL-ALI

Data Science & Machine Learning | COOP Candidate

contact.yasser.alali@gmail.com | 0556266315 | Riyadh, Saudi Arabia | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Science student at Majmaah University with hands-on experience building Python data pipelines, writing optimized SQL queries, and developing interactive Power BI dashboards. Delivered a real-time computer vision traffic detection system using YOLO and OpenCV as a senior capstone. Seeking a COOP opportunity to apply machine learning and analytical skills in a professional data environment.

WORK EXPERIENCE

Data Science Intern | [Majmaah University](#)

- Engineered automated data pipelines using Python (Pandas, NumPy), reducing manual data cleaning time across university datasets.
- Authored optimized SQL queries to extract and transform data from relational databases, improving departmental reporting speed.
- Conducted Exploratory Data Analysis (EDA) identifying 3+ key operational trends to support institutional strategic planning.
- Built interactive Power BI dashboards to visualize KPIs, enabling stakeholders to monitor project progress with real-time data.

PROJECTS

Real-Time Traffic Detection System

- Developed an end-to-end computer vision pipeline using Python, OpenCV, and YOLOv8 to detect and track vehicles in real-time video.
- Optimized model inference speed to handle high-resolution video feeds while maintaining high detection accuracy. Implemented data logging to export traffic flow statistics as structured CSV reports for downstream analysis.

Data Analytics Job Simulation

- Analyzed retail transaction data to identify customer purchasing patterns and high-value segments. Prepared data-driven insights and visualizations to support strategic recommendations for store layout optimization.

EDUCATION

B.Sc. – Data Science / Computer Science | [Majmaah University](#)

2020-01 – Present Saudi Arabia

Relevant Coursework: Machine Learning, Big Data Analytics, Python Programming, Database Management Systems (SQL).

SKILLS

- Python (Pandas, NumPy, Scikit-Learn)
- Feature Engineering
- Power BI
- Data Cleaning
- Technical Communication
- SQL
- Model Evaluation
- Exploratory Data Analysis (EDA)
- Problem-Solving
- Stakeholder Reporting

LANGUAGES

Arabic (Native) English (Professional Working)

CERTIFICATIONS

Data Analysis Certificate – STC & MISK

Data Analytics Job Simulation – Quantum (Forage)
